## Deduction

What is here?

How did it get here?

Rhizome  
(Japanese knotweed)

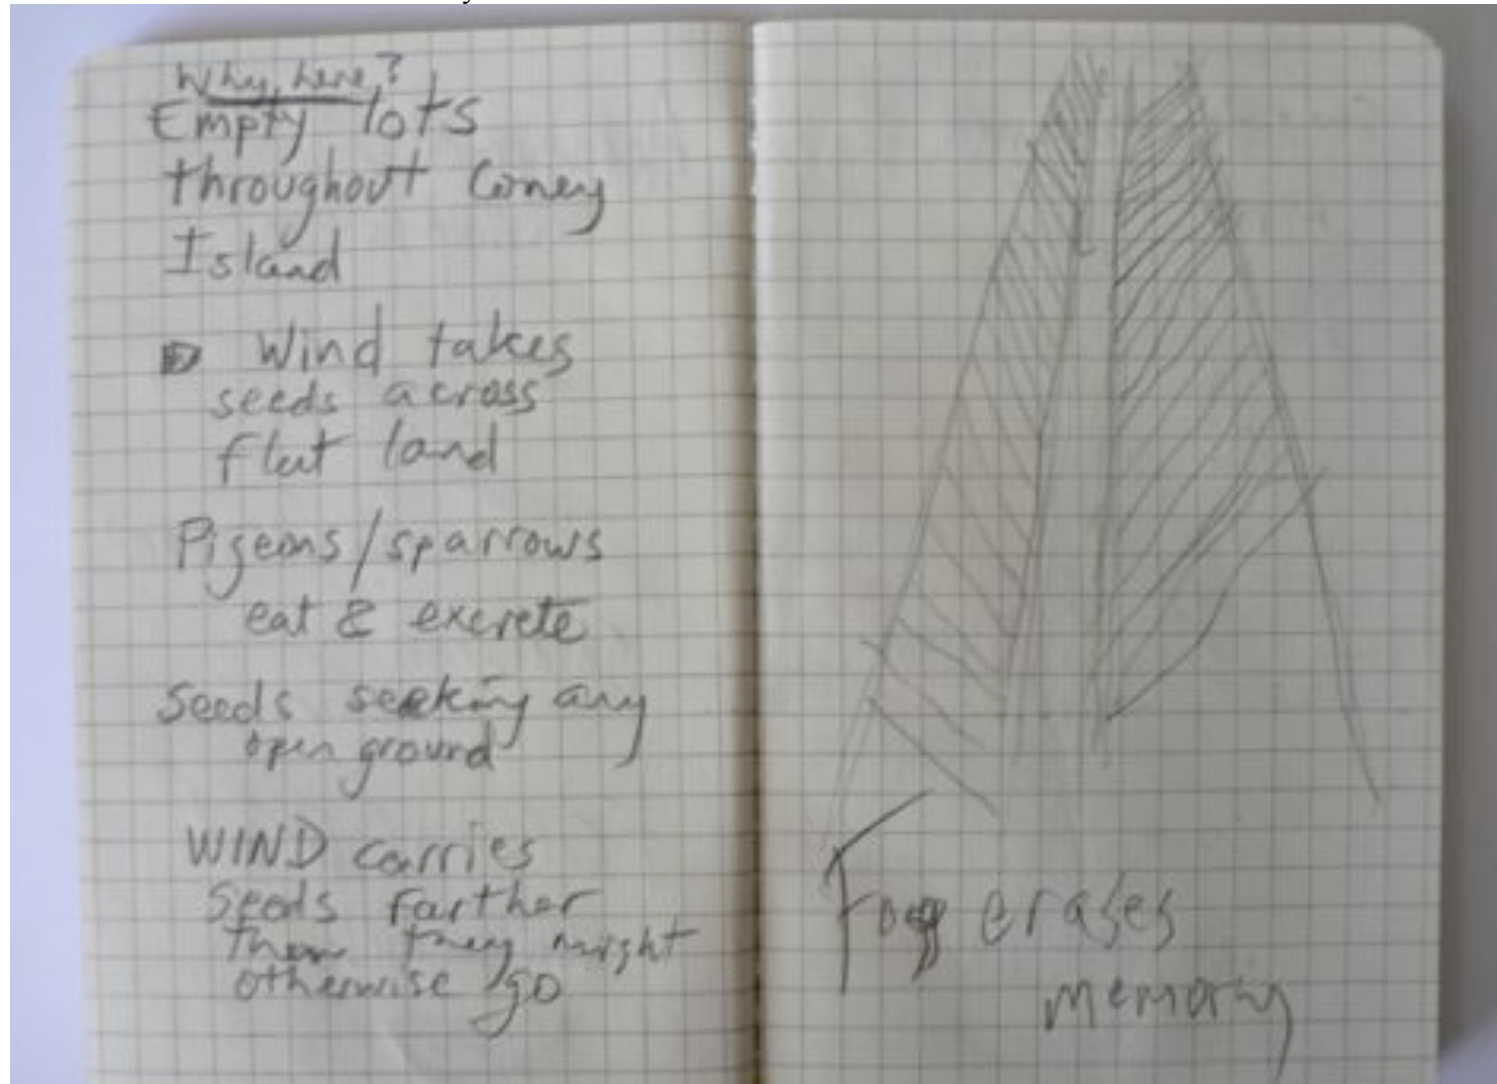

milkweed

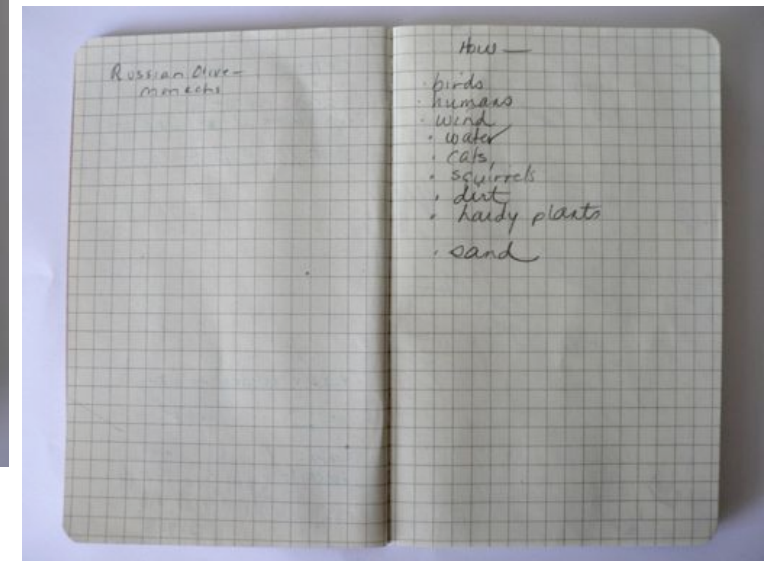

clover is a legume  
(and non-native)

Site 1: W. 15<sup>th</sup> and Boardwalk "Playland"

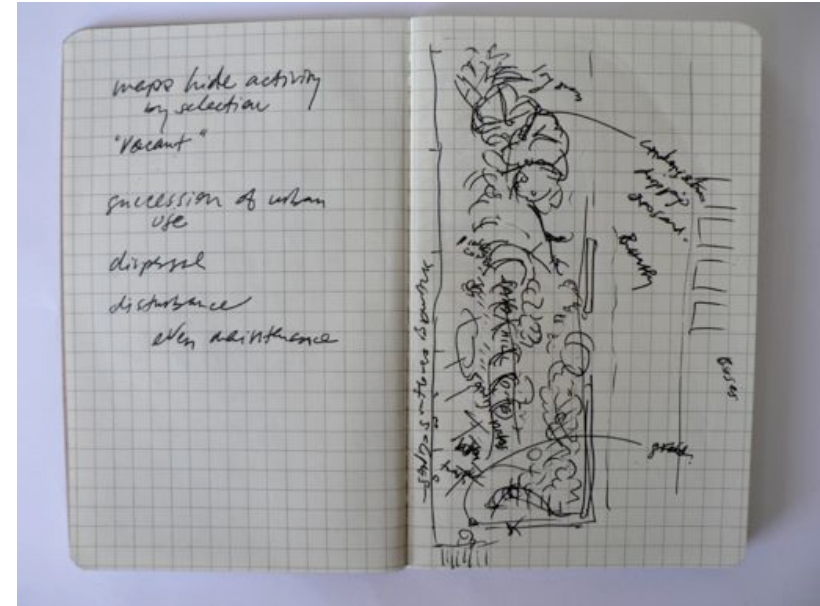

Succession, Dispersal, Disturbance

seeds carried in  
the pockets of  
drunken sailors -  
they scatter when  
the sailor falls  
down.  
Oregon seeds -  
sold as amaranth.  
To prevent this  
sailor uniforms  
are now designed  
with very few pockets.

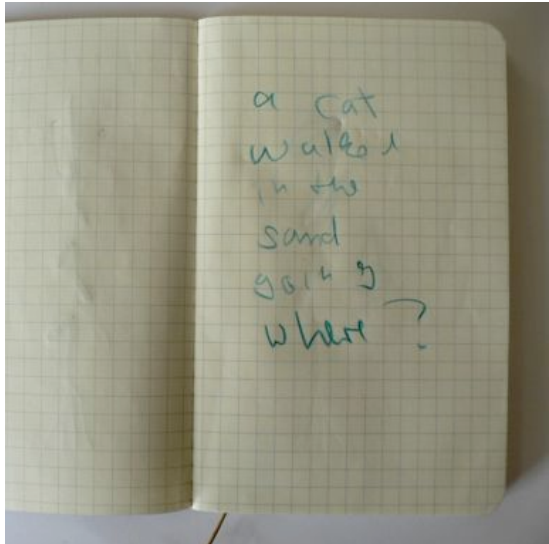

Along boardwalk to Site 2

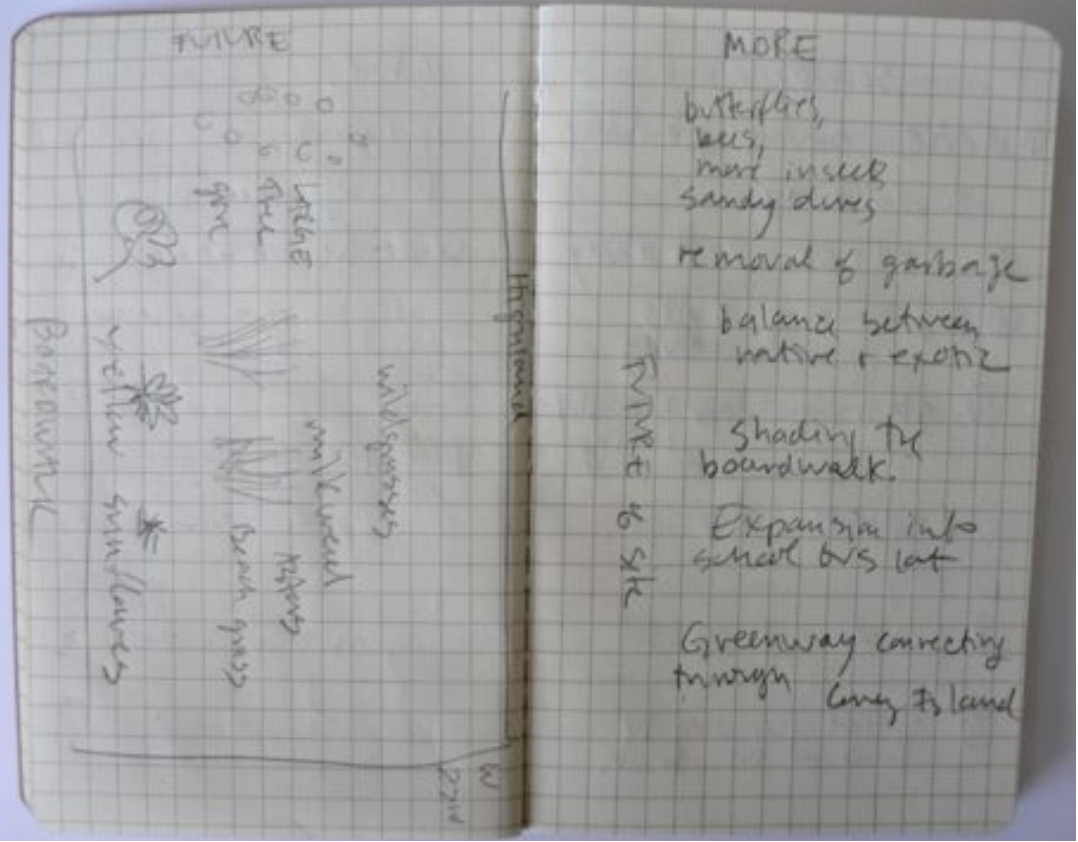

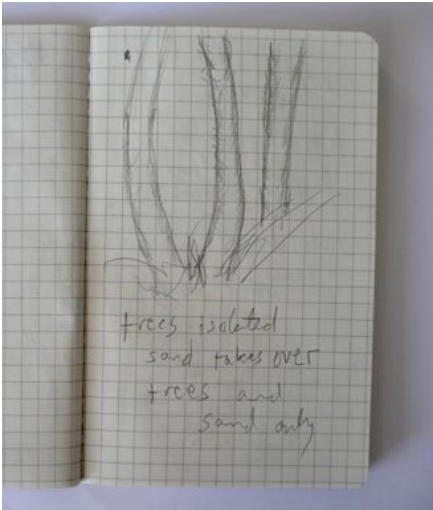

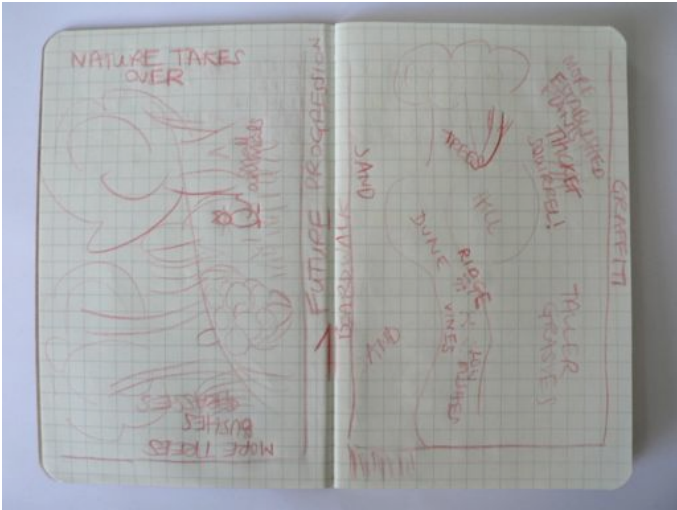

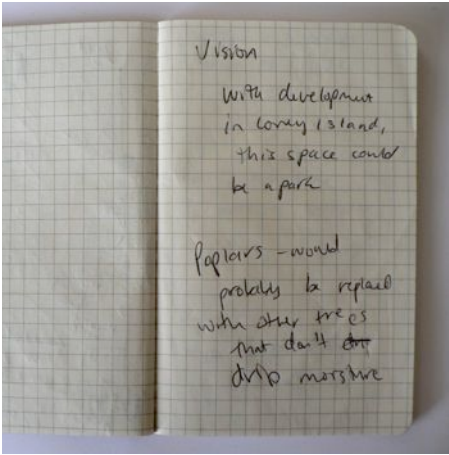

a cat  
walked  
in the  
sand  
got it  
where?

Landscape – Mapping and Vision of the Future

The last part  
becomes more  
dense & beautiful  
lush.

With 1/2 way near  
from the yellow  
flower to the  
ray area which  
has already  
filled out.

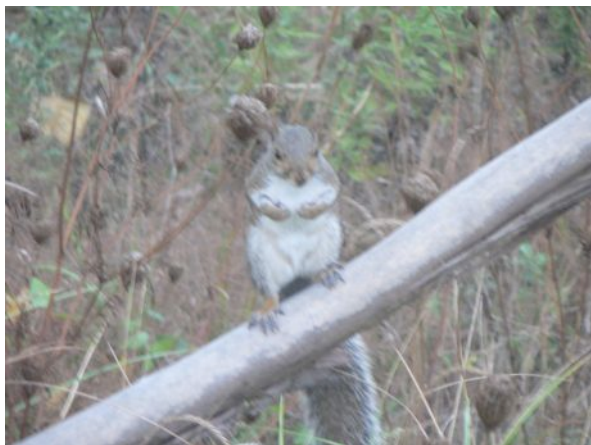

People from  
near of

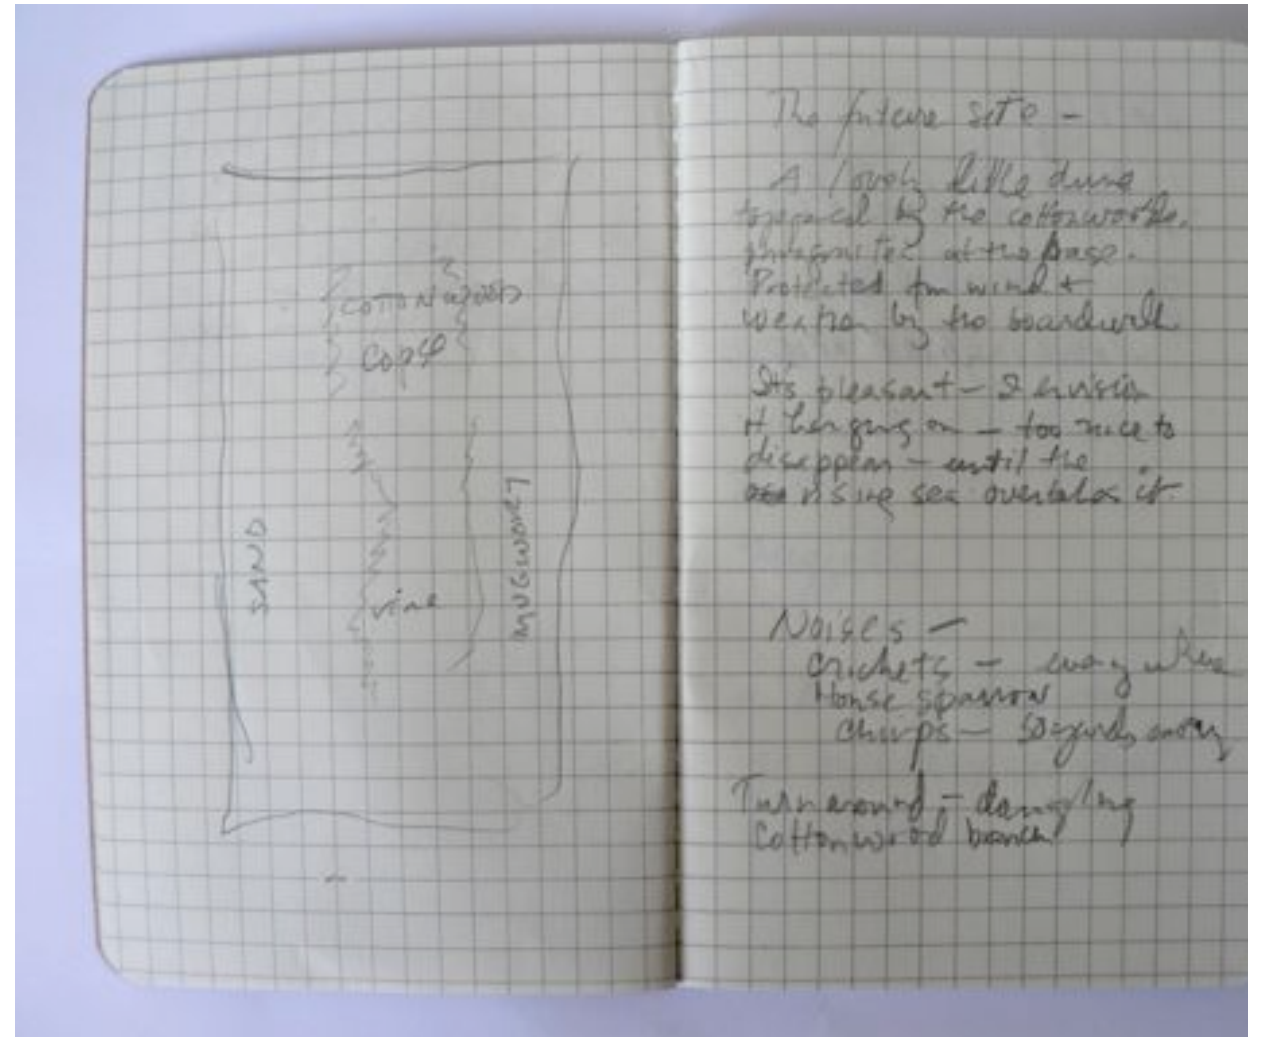

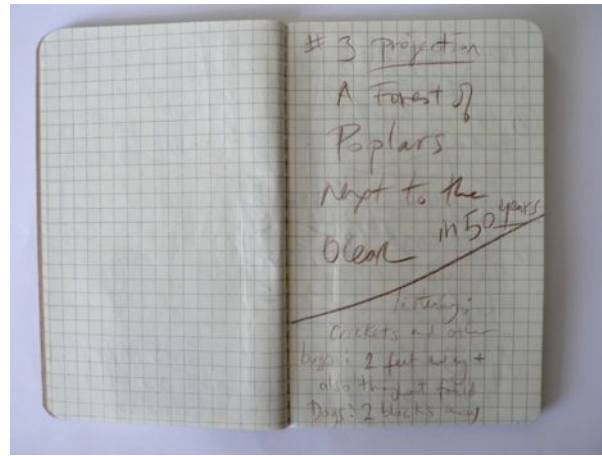

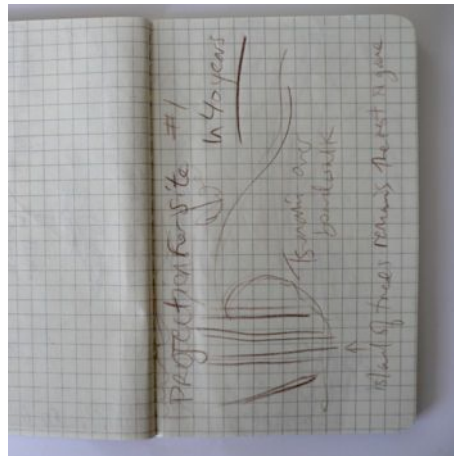

violet flower  
do right with  
the yellow.

There are planted  
by people at  
the other end.

The plants near  
the road near  
Galler to give  
a refuge from  
the road -

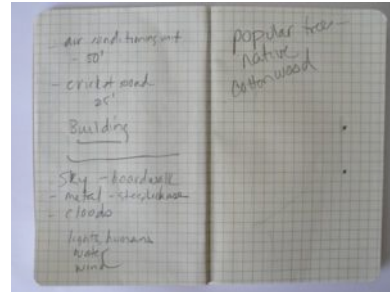

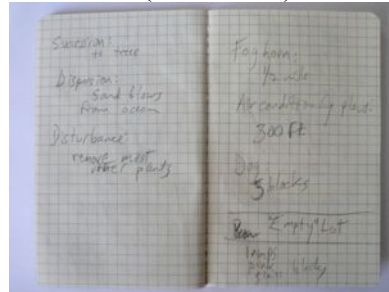

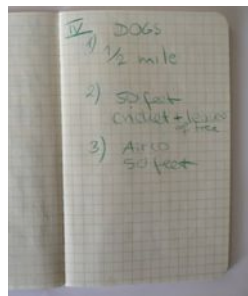

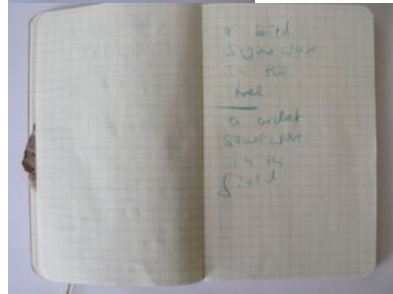

the sea  
takes the

space

back!

What moves

Organizing Randomness (Dance scores)

to fence tries to  
keep in, but  
no, we will go  
on 52 and him off  
to become  
a forest  
again  
A GOAL  
seeds spit  
dispersed  
here and  
there
